(Typed or printed name of person mailing paper or fee)

(Signature of person mailing paper or fee)

NOTE: Each paper must have its own certificate and the "Express Mail" label number as a part thereof or attached thereto. When, as here, the certification is presented on a separate sheet, that sheet must (1) be signed and (2) fully identify and be securely attached to the paper or fee it accompanies. Identification should include the serial number and filing date of the application as well as the type of paper being filed, e.g. complete application, specification and drawings, responses to rejection or refusal, notice of appeal, etc. If the serial number of the application is not known, the identification should include at least the name of the inventor(s) and the title of the invention.

NOTE: The label number need not be placed in each page. It should, however, be placed on the first page of each separate document, such as, a new application, amendment, assignment, and transmittal letter for a fee, along with the certificate of mailing by "Express Mail." Although the label number may be on checks, such a practice is not required. In order not to deface formal drawings it is suggested that the label number be placed on the back of each formal drawing or the drawings be accompanied by a set of informal drawings on which the label number is placed.

Sir:

In response to the "Reasons For Allowance" set forth in the Notice of Allowance, Applicant wishes to point out that the "plug" in Bisson (US 6,549,391) is component 32 in Figure 1, not element 34 which comprises a metal washer and that plug 32 is not a conductive pad as claimed by Applicant. Thus, the last sentence of paragraph 2 of the "Reasons For Allowance" should read:

Therefore, the pad of claim 2 is not disclosed.

Further, the word "plug" in the first sentence of paragraph 3 should read "pad".
